EXPERIENCE

Lead - iOS

Vorosoftware | Jun 2025 - Present

- Leading development of scalable, enterprise-grade iOS applications for the **consumer loyalty and retail-tech** domain.
- Architected clean, maintainable solutions using **MVVM, Coordinators, and modular Swift packages** for consistent, scalable code.
- Enhanced app performance and startup efficiency by refactoring core modules and implementing **resource optimization**.
- Integrated Lottie animations, analytics, deep linking, and secure storage using **Keychain and App Groups**, improving product quality.
- Mentoring iOS developers, driving adoption of modern **Swift, SwiftUI, Combine**, and contributing to **technical roadmaps**.

Technical Lead

Resiliency Program | Dec 2022 - May 2025

- Spearheaded development of **enterprise-grade iOS** applications for the **mental wellness and health-tech** sector with a focus on scalability.
- Boosted app efficiency by **reducing API response times by 30%** through caching, async loading, and backend collaboration.
- Mentored **senior iOS** developers and introduced reusable Swift packages, accelerating development and **improving code quality**.

Team Leader - iOS

9Brainz | May 2016 - Nov 2022

- Led a team of **5+ iOS developers**, ensuring on-time delivery through agile sprint planning, execution, and continuous mentorship.
- Designed and delivered **15+ iOS applications** across healthcare, finance, and e-commerce, focusing on performance and scalability.
- Integrated secure, seamless payments using **Apple Pay, Razorpay, and PayPal**, enhancing user experience and transaction reliability.
- Migrated legacy UIKit components to **SwiftUI**, boosting maintainability and leveraging modern **declarative UI**.

Junior/ Senior iOS Developer

TheAppGuruz | Jun 2014 - Apr 2016

- Developed and optimized iOS applications for **startups and enterprise clients**, ensuring high performance and usability.
- Contributed to projects spanning iOS 8 to iOS 10, including successful migration from **Objective-C to Swift**.
- Built **reusable UI components** to accelerate development and maintain design consistency across multiple apps.
- Collaborated with **designers and QA teams** to deliver reliable, high-quality products aligned with client expectations.
- Gained practical expertise in **Apple Human Interface Guidelines** and the complete **App Store submission** process.

TECHNICAL SKILLS

- **Languages:** SwiftUI, Swift, Objective-C
- **Platforms:** iOS, tvOS, watchOS, App Extensions
- **Frameworks:** SwiftUI, UIKit, Combine, CoreData, CoreAnimation, CoreLocation, ARKit
- **Architecture:** MVC, MVP, MVVM, Clean Architecture, VIPER
- **Testing:** XCTest, XCUITest, Instruments, TDD
- **Tools & Libraries:** Xcode, Simulator, LLDB, CocoaPods, Swift Package Manager, SDWebImage, Lottie, Firebase
- **Performance Optimization:** Instruments Profiling, Lazy Loading, View/Memory Optimization
- **CI/CD & DevOps:** Xcode Cloud
- **Other:** Agile/Scrum, RESTful APIs, GraphQL, Push Notifications, App Store Submission, InApp Purchases, Code Review, Mentoring Juniors

DOMAIN EXPERTISE

- **Health & Wellness:** Fitness Training, Yoga, Mental Wellness, Burnout Recovery
- **Sports & Gaming:** Brain Endurance Training, Horse Training, Math Puzzles
- **E-commerce:** Online Storefronts, Shopping Cart & Checkout Integration, Payment Gateway Integration
- **Real Estate:** Property Listings, On-Demand Video Streaming

ADDITIONAL HIGHLIGHTS

- **Performance Optimization:** Spearheaded key performance enhancements **across iOS** apps, achieving a **30% reduction** in load times and noticeably **smoother user experiences**.
- **Technical Leadership:** Built and led **high-performing iOS teams** by providing mentorship, conducting **code reviews**, and fostering a culture of collaboration—resulting in **increased productivity** and reduced defect rates.
- **Adoption of Modern Technologies:** Championed the use of cutting-edge tools and frameworks such as **SwiftUI, Combine, and MVVM architecture**, ensuring development teams stay current with the latest **Apple ecosystem advancements**.

APPSTORE APPS

Resiliency Program

- Mental wellness app with guided meditations.

Soma NPT

- Neuro-performance app enhancing cognitive and physical resilience.

Soma NPT Vision

- AR-based watchOS app for vision and cognitive training.

WS on Demand

- On-demand video streaming app

Fact of Your Name (FoYN)

- Fun app that reveals cool facts and meanings behind your name.

Bayleys

- Property management app for tenants to report and track building issues.

EDUCATION

- **B.E. in Computer Engineering**
Darshan Institute of Engineering & Technology, GTU | 2014 | **7.96 CGPA**
